[Telephony Systems Survey](#)

As part of Winter Access planning and in support of better access going forward, we need to build a picture of the telephony capabilities across the Primary Care Estate. This will help us to

evaluate where support is needed and build a case for wider system and NHSE support to develop telephony functionality and resilience. To gain practice level information a short survey has been developed to capture your some key details (link below).

Your participation in this survey will be greatly appreciated as we look seek opportunities that will benefit us all.
