

## Lincolnshire LMC Weekly Update - 13/01/2023

Lincolnshire LMC's weekly update is an overview of our published information relevant to practices.

All of our weekly updates can be found on our website: [www.lincslmc.co.uk/weeklyupdates](http://www.lincslmc.co.uk/weeklyupdates)

To ensure you keep up to date with the latest information, follow us on: Twitter, Facebook and Instagram [@LincolnshireLMC](https://www.instagram.com/LincolnshireLMC)

### Practice Updates

[Lincolnshire LMC: Update from NHS England on Accelerating Citizen Access to GP Data \(lincslmc.co.uk\)](http://lincslmc.co.uk)

#### Options for Practices

The options that the BMA provides for Practices that wish to opt-out (delay) are:

- Write to your system supplier (the Data Processor) before the switch on date using its preferred contact email address ([recordaccess@tpp-uk.com](mailto:recordaccess@tpp-uk.com) for TPP (SystemOne) practices and [aapostpone@emishealth.com](mailto:aapostpone@emishealth.com) for EMIS practices) requesting, as Data Controller, that automatic access not be switched on. Note: A draft template is provided alongside this [guidance](#).
- Run a focused search and subsequently apply batch exemption coding to those patients identified through the search using SNOMED code 1364731000000104 ("Enhanced review indicated before granting access to own health record").
- Apply batch exemption coding for the full practice list using SNOMED code 1364731000000104 ("Enhanced review indicated before granting access to own health record"). Note: this will not revoke access to patients who already have online access but it will prevent any of those patients getting prospective (future) full record access if they do not already have it.

Below is the message from TPP for your information.

#### Prospective Record Access for Patients - Update 10 January 2023 from TPP

As you will be aware, NHS Digital has instructed TPP to make a mandatory change in SystemOne, through the GP IT Futures contract, to enable patients to view prospective data added to their GP record.

This change will take place on 01 February 2023 but **ONLY** for practices that have not explicitly opted out.

These practices have received a SystemOne Task informing them that the change will take place.

If your practice has received the Task and wants the change to take place as planned, you do not need to take any further action for the change to be applied.

However, if your practice has received the Task but does **NOT** want the change to take place, you must take immediate action. Please email [RecordAccess@tpp-uk.com](mailto:RecordAccess@tpp-uk.com) by 27 January 2023 at the latest registering your opt-out. You must include your instruction, practice name, address and ODS code.

If your practice has **NOT** received the Task but **DOES** want the change to take place, please email [RecordAccess@tpp-uk.com](mailto:RecordAccess@tpp-uk.com) registering your choice to be enabled. Again, you must include your instruction, practice name, address and ODS code.

For more information about the change, including how to hide individual consultations from being viewed by a patient, please refer to the Accelerated Access Guide which can be accessed from within SystmOne, by navigating to: **Help > Support and FAQs > Documents & Training Guides**.

Practices can view updated central support and guidance at [digital.nhs.uk/records](https://digital.nhs.uk/records) and also email [england.nhseimplementation@nhs.net](mailto:england.nhseimplementation@nhs.net) with any queries.

As you will be aware, NHS Digital has instructed TPP to make a mandatory change in SystmOne, through the GP IT Futures contract, to enable patients to view prospective data added to their GP record.

**This change will take place on 01 February 2023 but ONLY for practices that have not explicitly opted out.**
