MIN NUMBER OF PATIENTS COVERED BY AMBER + PRACTICES¹.	261,738
GPAS to OPEL Conversion for the county wide assessment	3
Indicative number of patient contacts in General Practice this week².	131,103

GPAS – COMMENT / ANALYSIS

The county wide assessment this week is **AMBER / OPEL 3** with **62%** of reporting practices assessed as **AMBER**, **3%** reporting as **RED**, **0%** as **BLACK** covering a total patient population of **261,738**. **GREEN** assessments account for **35%**.

In addition to the standard report attached, we have received the following information affecting General practices:

Other comments:

- Annual leave and sickness affecting capacity.
- High levels of DNAs (all time high), all booked in advance and sent text reminders.
- Patient demand is so high we are struggling to do LTC/QOF work.
- People attending Urgent Treatment Centre and A&E over the weekend - and then choosing not to wait or advised to contact the GP (of note those return to GP in our opinion could/should have been dealt with).
- Stopped using Locums due to high costs.
