## GP Collective Action – Shared Care Agreements notice guidance

We have created guidance for those practices who are currently providing Shared Care and intend to serve notice due to concerns over implementation or viability.

Shared care is a specialist service and can be challenging to safely provide depending on how robustly the monitoring and reviews are happening in Secondary care and how timely any documentation of monitoring is received by your practice.

Enclosed in this guidance is the process for practices to identify patients and inform the ICB and provider of notice. A letter for patients is also included.

Please do contact us if you need any support with any of your actions.

## Lincs LMC Collective Action Webinar

After we had excellent attendance at our first Collective Action Webinar and many practices have now started to implement initial actions, you may have questions about what to do next, how to do it or even any hiccups you have found to implementing actions.

We will shortly be arranging a further webinar to address some national and local updates and to also answer your questions on actions and implementing them.

**Keep an eye out next week when we circulate the date and your invite.**

This is our time to be a unified voice for general practice and fight for what we and our patients need!
