GPAS to OPEL Conversion for the county wide assessment **3**

Indicative number of patient contacts in General Practice this week²: **127,184**

GPAS – COMMENT / ANALYSIS

The county wide assessment this week is **AMBER / OPEL 3** with **80%** of reporting practices assessed as **AMBER**, **0%** reporting as **RED**, **0%** as **BLACK** covering a total patient population of **283,690**. **GREEN** assessments account for **20%**.

In addition to the standard report attached, we have received the following information affecting General practices:

Other comments:

- Increased number of patient contacts. Reliance on locums to pick up extra sessions.
- DNAs still at high rate.
- A lot of clinician absence this week for half term and exam prep.
- Leavers, holidays, and staff sickness (respiratory illness) impacting on Clinical Services.
- Short staffed due to sickness & annual leave. Patient demand is ever increasing as are the expectations of what primary care can actually do for them.
